CREATING TRANSIT CHOICES

PROJECT DESCRIPTION

Utah Department of Transportation and Utah Transit Authority have teamed to develop a Draft Environmental Impact Statement (DEIS) for mass transit in South Davis County. The study is being conducted to identify the best transit solution or solutions for South Davis County.

The DEIS builds on a previous study that was conducted by the Wasatch Front Regional Council and is divided into two phases. The first phase is comprised of an Alternative Analysis process that marks the first step toward obtaining eligibility for federal funding through the Federal Transit Administration. The Alternatives Analysis will conclude with the identification of a Locally Preferred Alternative in late 2007.

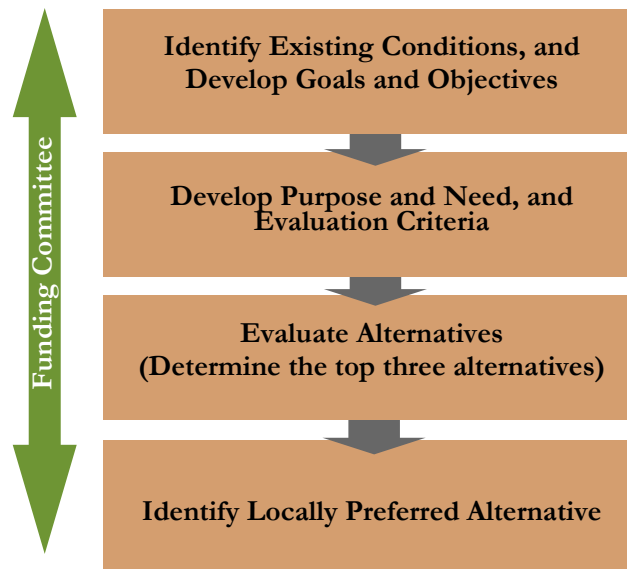

The second phase of the South Davis Transit DEIS is the detailed evaluation of impacts pursuant to the National Environmental Policy Act. The timeline for the second phase of the DEIS has not yet been determined.
